SHREE STEEL
EVERYTHING IN STEELFAB

About Us:

Shree steel is a leading provider of Pre-Engineered Building (PEB) solutions. With a commitment to innovation, quality, and customer satisfaction, we have established ourselves as a trusted partner for manufacturing, designing, fabricating, and erecting pre-engineered building structures of exceptional quality in the construction industry. Shree steel was founded on the principles of delivering excellence in manufacturing, design, Engineering, and construction, making us the preferred choice for a wide range of industries. Shree steel has successfully delivered numerous projects across diverse sectors.

SHREE STEEL

Our Mission :

At Shree steel, our mission is to deliver high-quality, customized pre-engineered building solutions that meet our client' unique needs while ensuring safety, efficiency, and sustainability.

Our Expertise :

At Shree steel, we specialize in every aspect of Pre-Engineered Buildings. Our comprehensive services include:

- Design and Engineering: Our expert team of architects and engineers creates customized PEB designs that meet the unique needs of each project.
- Manufacturing: We have state-of-the-art manufacturing facilities equipped with cutting-edge technology to ensure precision and quality in every component we produce.
- Installation and Erection: Our skilled workforce ensures seamless installation and erection of PEBs, adhering to safety and quality standards.
- Project Management: We take a project from concept to completion, handling every detail with professionalism and efficiency.
- Civil Construction: We also take a projects from Civil construction with all lock and key facility.

Key Services :

- Pre-Engineered Buildings (PEB) design, Manufacturing and construction.
- Turnkey solutions for industrial and commercial structures.
- Shree steel provides Customized PEB solutions.
- Shree steel execute all Civil Construction
- Roofing and cladding solutions.

Pre-Engineered Building (PEB) Structure :

Shree steel provides a pre-engineered building (PEB) structure is a construction method that involves designing and fabricating building components in a factory before transporting and assembling them on the construction site. These structures are often used for a wide range of applications, including industrial facilities, warehouses, storage buildings, commercial buildings, and more. PEB structures are known for their cost-effectiveness, speed of construction, and flexibility in design and construction.

Roof sheeting and cladding

In Shree steel these components are typically designed to be lightweight, durable, and easy to install. The choice of materials and design depends on factors such as the building's purpose, location, environmental conditions, and architectural preferences. Shree steel provides a proper installation and maintenance of roof sheeting and wall cladding to ensure the long-term integrity and performance of the building.

Brand Name:HXY			Product Name: Roofing Sheet			
Model NO.	Sheet Thickness (mm)	Effective Width (mm)	Length (m)	Describtion	Sheet Color	Reference Pictures
YX35-240-960	0.18-1.5	960	Max 5.8m for 20GP;11.8m for 40GP/HQ.	ASTM A653M; Q235;Q345 Zinc coating:30-275g/m²	as RAL color	
YX41-210-420	0.18-1.5	420	Max 5.8m for 20GP;11.8m for 40GP/HQ.	ASTM A653M; Q235;Q345 Zinc coating:30-275g/m²	as RAL color	
YX70-470	0.18-1.5	470	Max 5.8m for 20GP;11.8m for 40GP/HQ.	ASTM A653M; Q235;Q345 Zinc coating:30-275g/m²	as RAL color	
YX71-380-760	0.18-1.5	760	Max 5.8m for 20GP;11.8m for 40GP/HQ.	ASTM A653M; Q235;Q345 Zinc coating:30-275g/m²	as RAL color	

Deck sheet

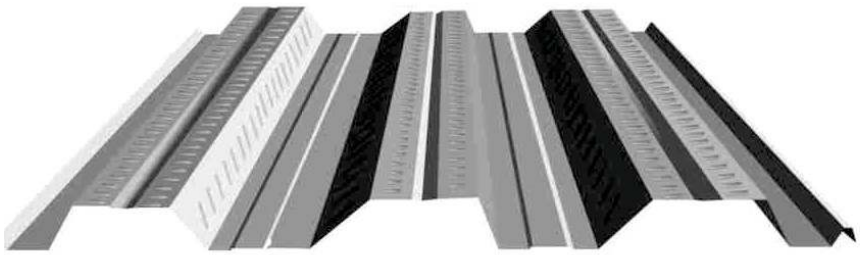

SHREE STEEL
EVERYTHING IN STEELFAB

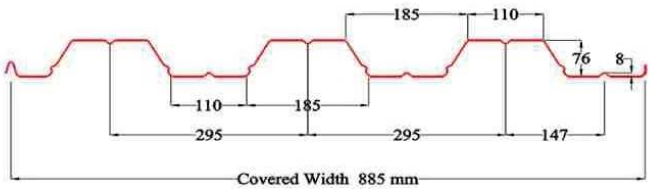

Shree Steel offer a range of decking profiles in gauges varying from 0.8 to 1.25mm; all profiles are manufactured from steel strip to ASTM 653 / SS275 with guaranteed minimum yield strength of 350 N/mm2. Each Profile provides its own set of advantages to flexibly meet individual project requirements. Thickness of the Decking Sheets range from 0.60 mm to 1.2 mm. Standard Utilization is 0.80mm.

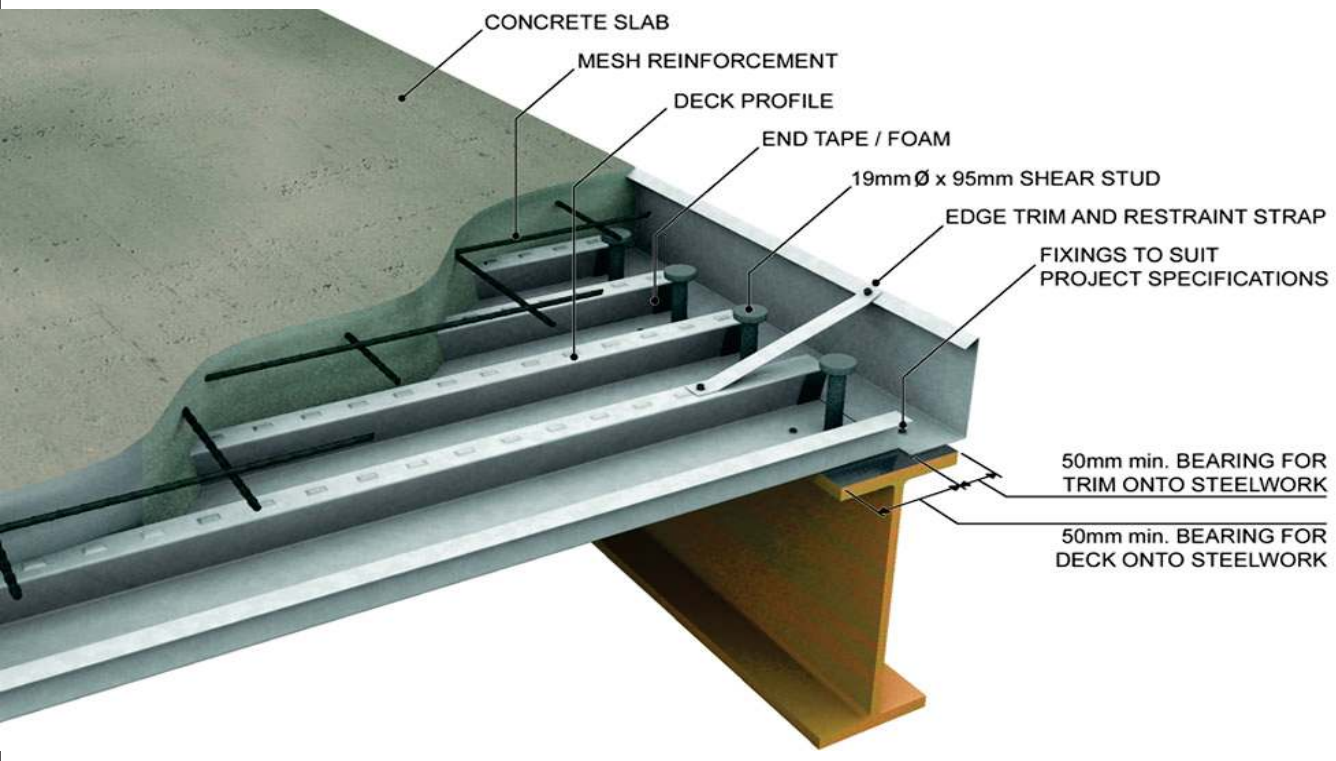

Advantages :

- Deck sheets are durable and resistant to weather and corrosion.
- They are cost-effective and can be quickly installed, reducing construction time.
- The profiled design of deck sheets adds structural strength to the roof.

Decking Profile - MP 76

Purlins

SHREE STEEL
EVERYTHING IN STEELFAB

Shree steel provides C and Z profile purlins. These Purlins are essential components in Pre-Engineered Buildings, providing structural support for roof and wall cladding materials. Their design and installation are critical for the overall stability and performance of the building, making them a fundamental element in the construction of PEB structures.

Benefits:

Purlins in PEB structures offer several advantages, including:

- Lightweight and cost-effective solutions for supporting roof and wall cladding.
- Faster construction due to the pre-engineered nature of the building components.
- High strength-to-weight ratio, making them ideal for spanning large distances.
- Efficient use of materials, reducing waste and construction costs.

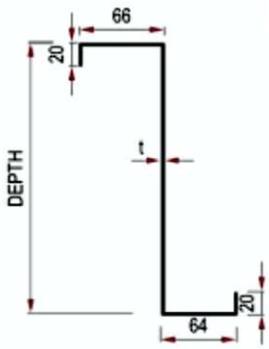

Z Section Purlins

Section Properties For "Z" Section

Depth mm	Thickness mm	Area cm2	Ixx cm4	Zxx cm3	zyy cm3	Top of Flange	Bottom of Flange
230	1.75	6.623	503.11	44.36	7.37	66	64
230	2.00	7.53	568.91	48.79	8.27	66	64
230	2.30	8.60	645.89	55.39	9.28	66	64

Notes :
Grade of Steel 345 Mpa
Depth = 200 & 250 Also Available on Requested

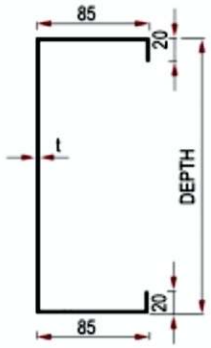

C Section Purlins

Section Properties For "C" Section

Depth mm	Thickness mm	Gross IX cm4	Gross Sx cm3	EFF. Sx cm4	Rx cm	Iy cm4	Min Sy cm3	Ry cm
200	2.00	491.7	49.17	41.45	7.86	73.37	12.12	3.07
200	2.50	610.6	61.06	53.71	7.91	91.76	15.18	3.07

Notes :
Grade of Steel 345 Mpa
Depth = 230 & 250 Also Available on Requested

Industries to be Served:

Shree steel caters to a diverse range of industries, including but not limited to:

- Industrial and Manufacturing
- Commercial and Retail
- Agricultural
- Warehousing and Logistics
- Schools and colleges
- Bhagar mills

Our Projects :

Shree steel takes pride in its portfolio of successful projects, which showcase our expertise in Manufacturing, designing and constructing PEBs and Civil construction.
